ASBESTOS AND LEAD BASE PAINT SERVICES

ACT provides our clients with cost effective, accurate, and timely investigation and management services for projects involving asbestos and lead-based paint. We utilize state-of-the-art x-ray fluorescence technology for quick and accurate lead based paint inspections and have decades of experience with asbestos inspections, project designs and project management.

ACT offers a tenured team of asbestos and lead based paint project managers and technicians. All our staff maintains requisite certification and safety training required to sample and manage asbestos and lead based paint.

WHO WOULD BENEFIT

Everyone benefits from an environment free of exposed lead based paint and friable asbestos. Our clients that demand efficient and timely asbestos and lead based paint inspection services include construction contractors, municipalities, developers, and engineering firms. Many municipalities are responsible for U.S. Department of Housing and Urban Development (HUD)-funded lead based paint inspection and remediation programs. ACT's staff has extensive experience managing and implementing HUD's requirements under these programs. Additionally, numerous colleges, universities, school districts, and hospitals have benefited from ACT's comprehensive asbestos and lead based paint inventories prior to renovation and demolition projects.

SERVICES

- Municipal HUD LBP Program Management Services
- XRF Lead Based Paint Sampling
- Lead Based Paint Inventories
- Lead Risk Assessment
- Lead Based Paint Remediation Specifications
- Lead Clearance Inspections
- Asbestos Sampling
- Asbestos Inventories
- Asbestos Project Designs
