ACT Safe, LLC transportation regulatory experts help clients identify, classify, label, and ship all manner of dangerous goods by land, air, or sea, and manage the sometimes bewildering cross-border inconsistencies in international regulatory requirements. Transport of Dangerous Goods and Hazardous Materials (HazMat) -- U.S. / EU / International Crucial to production and marketing is the ability to move the precursors and products safely and compliantly through the supply chain. The transport of such goods is governed by a complex network of national and international regulations, programs that have extremely broad applicability across many industries. Any company involved in transporting dangerous or hazardous materials, even at very small quantities, is required to comply with the regulations or seek a waiver.

WHAT SERVICES WE PROVIDE

TRAINING

We are your one-stop shop. We conduct training sessions on DOT, ICAO/IATA, IMDG, Canadian Transport Emergency Centre — CANUTEC and perform at your location, in the language(s) of choice.

- Ground Workshop (49 CFR)
- Two-day Hazmat Ground Shipper Certification (DOT) Workshop - DOT hazardous materials regulations (49 CFR) that apply to all U.S. hazmat shipments.
- Air Workshop (IATA)
- Hazmat Air Shipper Certification (IATA) Workshop. This compliance workshop builds on your 49 CFR knowledge and teaches you the latest hazmat air shipping rules (IATA DGR).
- Hazard determinations for machine specific LOTO procedures. (Electrical; Hydraulic; Pneumatic; Mechanical; Gravitational; Thermal; Chemical; Fluids and gasses; Water under pressure; and/or Steam)
- Vessel Workshop (IMDG)

- Hazmat Vessel Shipper Certification (IMDG) Workshop. You will learn the latest changes to the International Maritime Dangerous Goods (IMDG) Code and the unique rules for vessel transport.

AUDITS

For a thorough assessment of your facility and existing systems and arranged for a regulatory audit. Our auditors can identify problem areas and suggest solutions. We minimize/reduce your chance for accidents and eliminate violations & potential fines.

SDS INTERPRETATION, CLASSIFICATION AND TECHNICAL SUPPORT

When you're not familiar with the product and do not have time or sufficient knowledge to interpret an MSDS/SDS; contact one of our hazmat specialists. They will determine if product is regulated for transport and apply the corresponding regulation as per your transport needs
